Managing your family's information is a team sport

Stay Up-to-Date

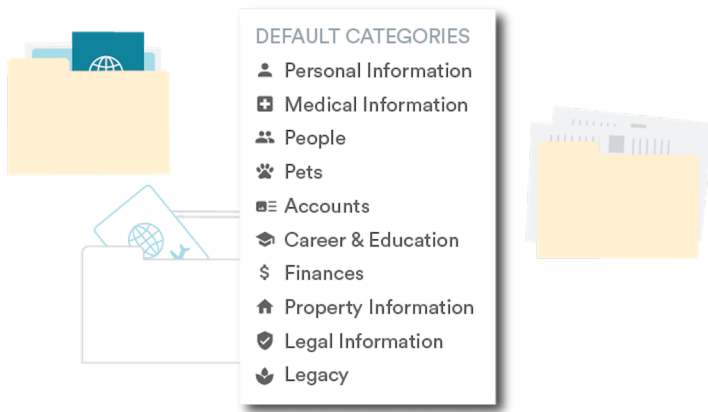

Every time a collaborator accesses your account, you'll see it on your dashboard and get an email notification.

Encrypted Messaging

Exchange secure, real-time messages with your collaborators to let them know about important changes or documents.

Share Your Information

After granting partial or full access to your account, easily switch between you and your collaborator to view or edit information.

Easy access to your life's important information

Life Categories

Choose from dozens of pre-organized categories to save information like your latest prescription, password, or credit card.

Secure File Sharing

Eliminate the risk of emailing attachments through unsecure, unencrypted servers.

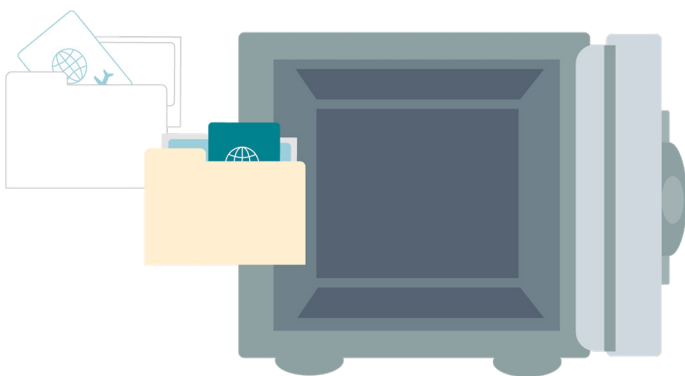

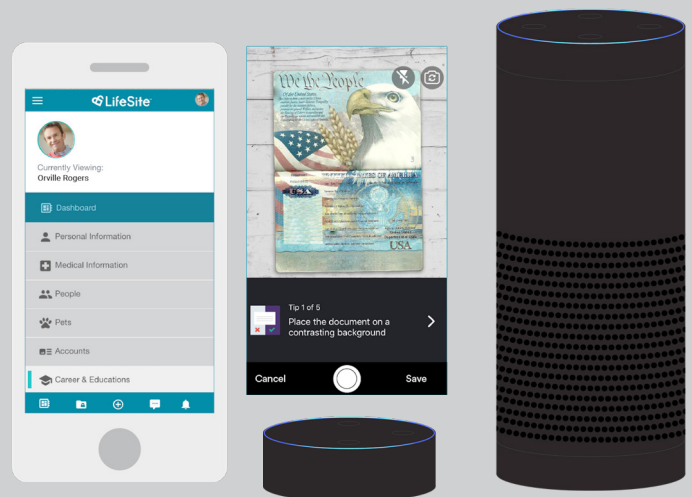

Your information at your fingertips and lips

Mobile App

Use the free LifeSite app to “point and shoot” to scan and upload documents like medical prescriptions, contracts, or a resume.

Amazon Alexa

Look up and save your information with just your voice on any Amazon Alexa-enabled device.

Don't choose between security and convenience

Industry-Leading Security

LifeSite's patented security with layered encryption and unique user encryption keys lets you safely access your information at home, on the road, and anywhere in between.
